

Question 2: What are the Top 10 Colleges for NFL Draft players

```
In [4]: # Count the number of players from each college and get the top 10
top_10_colleges = df['College/Univ'].value_counts().head(10).reset_index()
top_10_colleges.columns = ['College/Univ', 'Number of Players']

# Create a bar chart for the top 10 colleges
fig = px.bar(top_10_colleges,
             x='College/Univ',
             y='Number of Players',
             title="Top 10 Colleges by Number of NFL Draft Players")

# Rotate x-axis labels for better readability
fig.update_layout(xaxis_tickangle=-45)

# Show the figure
fig.show()
```

Top 10 Colleges by Number of NFL Draft Players
